

AMAN SHARMA

Java Backend Developer

amansh1116@gmail.com | +91 6261405207 | Navi Mumbai, India | [linkedin.com/in/aman-sharma-34330521a](https://www.linkedin.com/in/aman-sharma-34330521a)

Professional Summary

Java Backend Developer with 1.5+ years of experience building backend systems using Spring Boot and MySQL. Worked across hardware-software integration, REST API development, and multi-site deployments. Progressed from Intern to Associate Consultant at RigvedIT through consistent technical contributions and on-site project delivery.

Work Experience

Java Backend Developer

RigvedIT · Navi Mumbai, On-site · Full-time

December 2024 – Present · 1 yr 6 mos

Intern ■ Associate Trainee ■ Associate Consultant (current)

- Developed and deployed a Weighbridge Automation System using Spring Boot and MySQL with RFID and sensor integration for automated truck identification and weight capture.
- Deployed and managed the system across 10+ plant locations, handling backend configuration and on-site setup at each site.
- Consumed SAP REST APIs to post weighbridge data directly into the ERP system, removing the need for manual data entry.
- Integrated hardware devices with backend services using TCP/IP and COM protocols for real-time data communication.
- Implemented socket-based communication to handle live data streams from weighing devices.
- Developed and optimised REST APIs using Java and Spring Boot.
- Wrote SQL queries in MySQL for data handling, validation, and reporting.
- Debugged and resolved production issues across backend logic and hardware communication layers.
- Built backend features, tested REST APIs using Postman, and improved existing functionalities across modules.

Education

Bachelor of Technology — Computer Science & Engineering

LNCT Group of Colleges, Bhopal (affiliated to RGPV)

May 2021 – May 2024 | CGPA: 8.3 / 10

Technical Skills

Languages	Java
Backend	Spring Boot, RESTful APIs, Hibernate, JPA, MVC Architecture
Database	MySQL, SQL, Database Design, Query Optimisation
Hardware/Protocols	TCP/IP, COM Ports, Socket Programming, RFID Integration, Sensor Automation
ERP Integration	SAP API Integration (REST)
Tools	Git, Maven, Postman, IntelliJ IDEA, Eclipse
Concepts	OOP, Exception Handling, Input Validation, Multi-Plant Deployment
